Projects & main operational issues

In Spain, we are actively working to reduce our cost base at the same time that we enhance our offer. As part of this strategy, we have closed five underperforming halls since 3Q-2014 and will continue to review our bingo hall portfolio. Both in Mexico and Spain, we launched in 1Q-2015 a set of new proactive marketing and sales initiatives to grow our customer base.

Third quarter of 2015 compared to third quarter 2014

While net operating revenues remained stable, Ebitda grew by 25.5%, improving our Ebitda margin to 25.6% from 20.4%. The improvement is primarily due to the net shift in sales mix to higher margin gaming kits vs. new slot machine cabinets, and the increase in sales of our gaming systems. We have maintained our leadership position in the Spanish AWP slot machines market (55% market share) in a highly competitive market.

Projects & main operational issues

We will continue with our cost reduction initiatives and leverage our market leadership to support our sales of gaming kits: Cirsa's high market share facilitates sales in the kits & refurbishment market segment. R&D activities will continue to focus on profitable segments: all current programs being developed are intended to positively impact P&L.

- On April 29, 2015, we amended our Revolving Credit Facility (RCF) increasing the committed amount from Deutsche Bank to €75 million and extending the maturity to March 30, 2020. As of today, the RCF remains fully available at €75 million.

As part of our ongoing efforts to manage our debt profile, we may from time to time repay, prepay or repurchase our existing indebtedness prior to its scheduled maturity.
